

Advance Event Registration Portal

Presented by Avinash Kumar

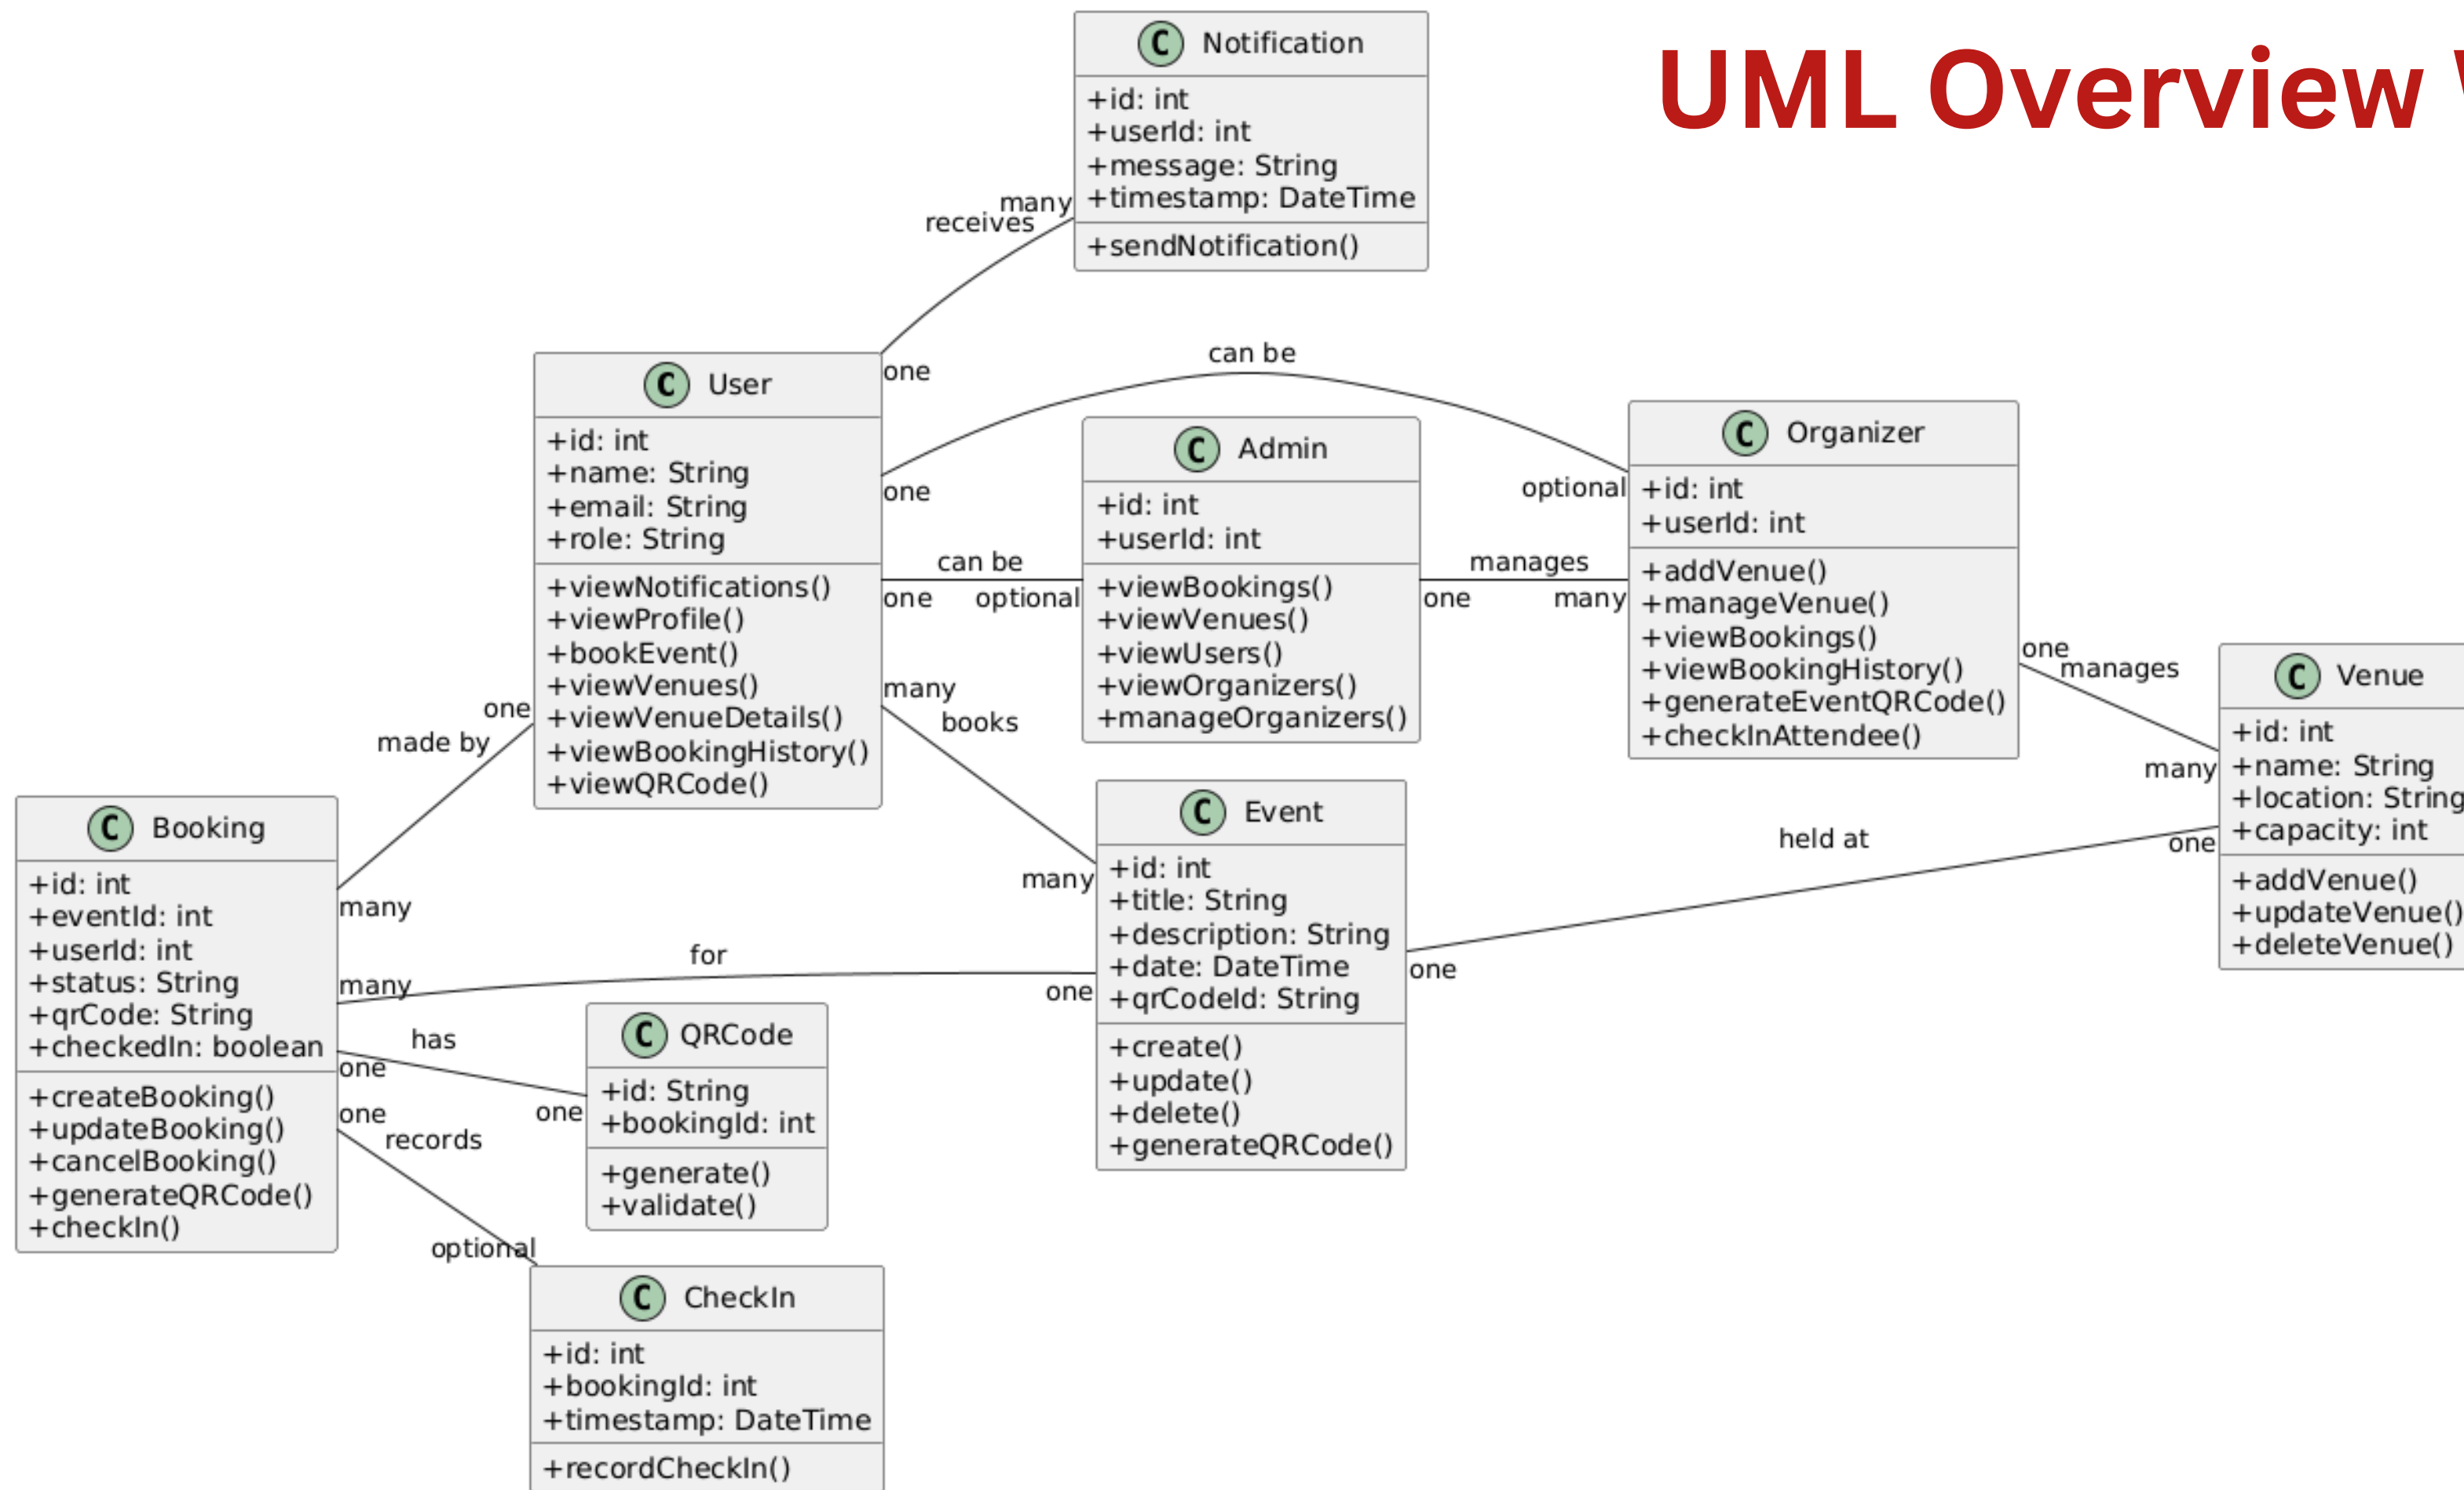

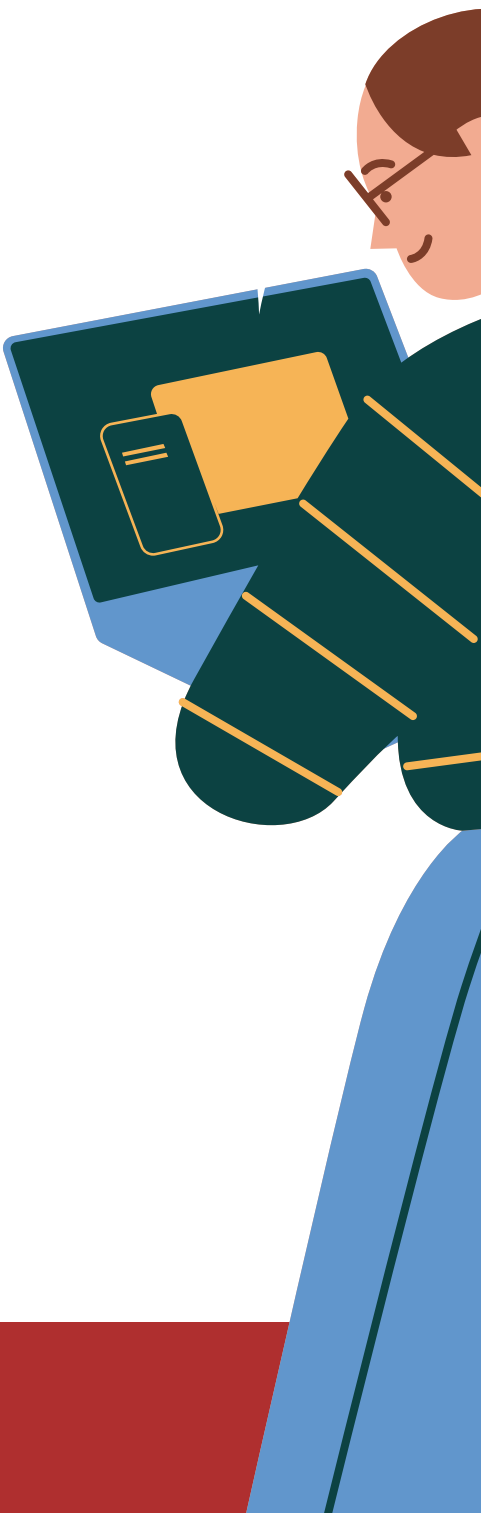

Unique Features

- Single user account with flexible role assignment (User, Organizer, Admin)
- Unique QR codes generated for each booking
- Organizers can add and manage multiple venues
- Keeps users informed about their bookings, upcoming events, and any changes
- Check-in system provides valuable data on event attendance

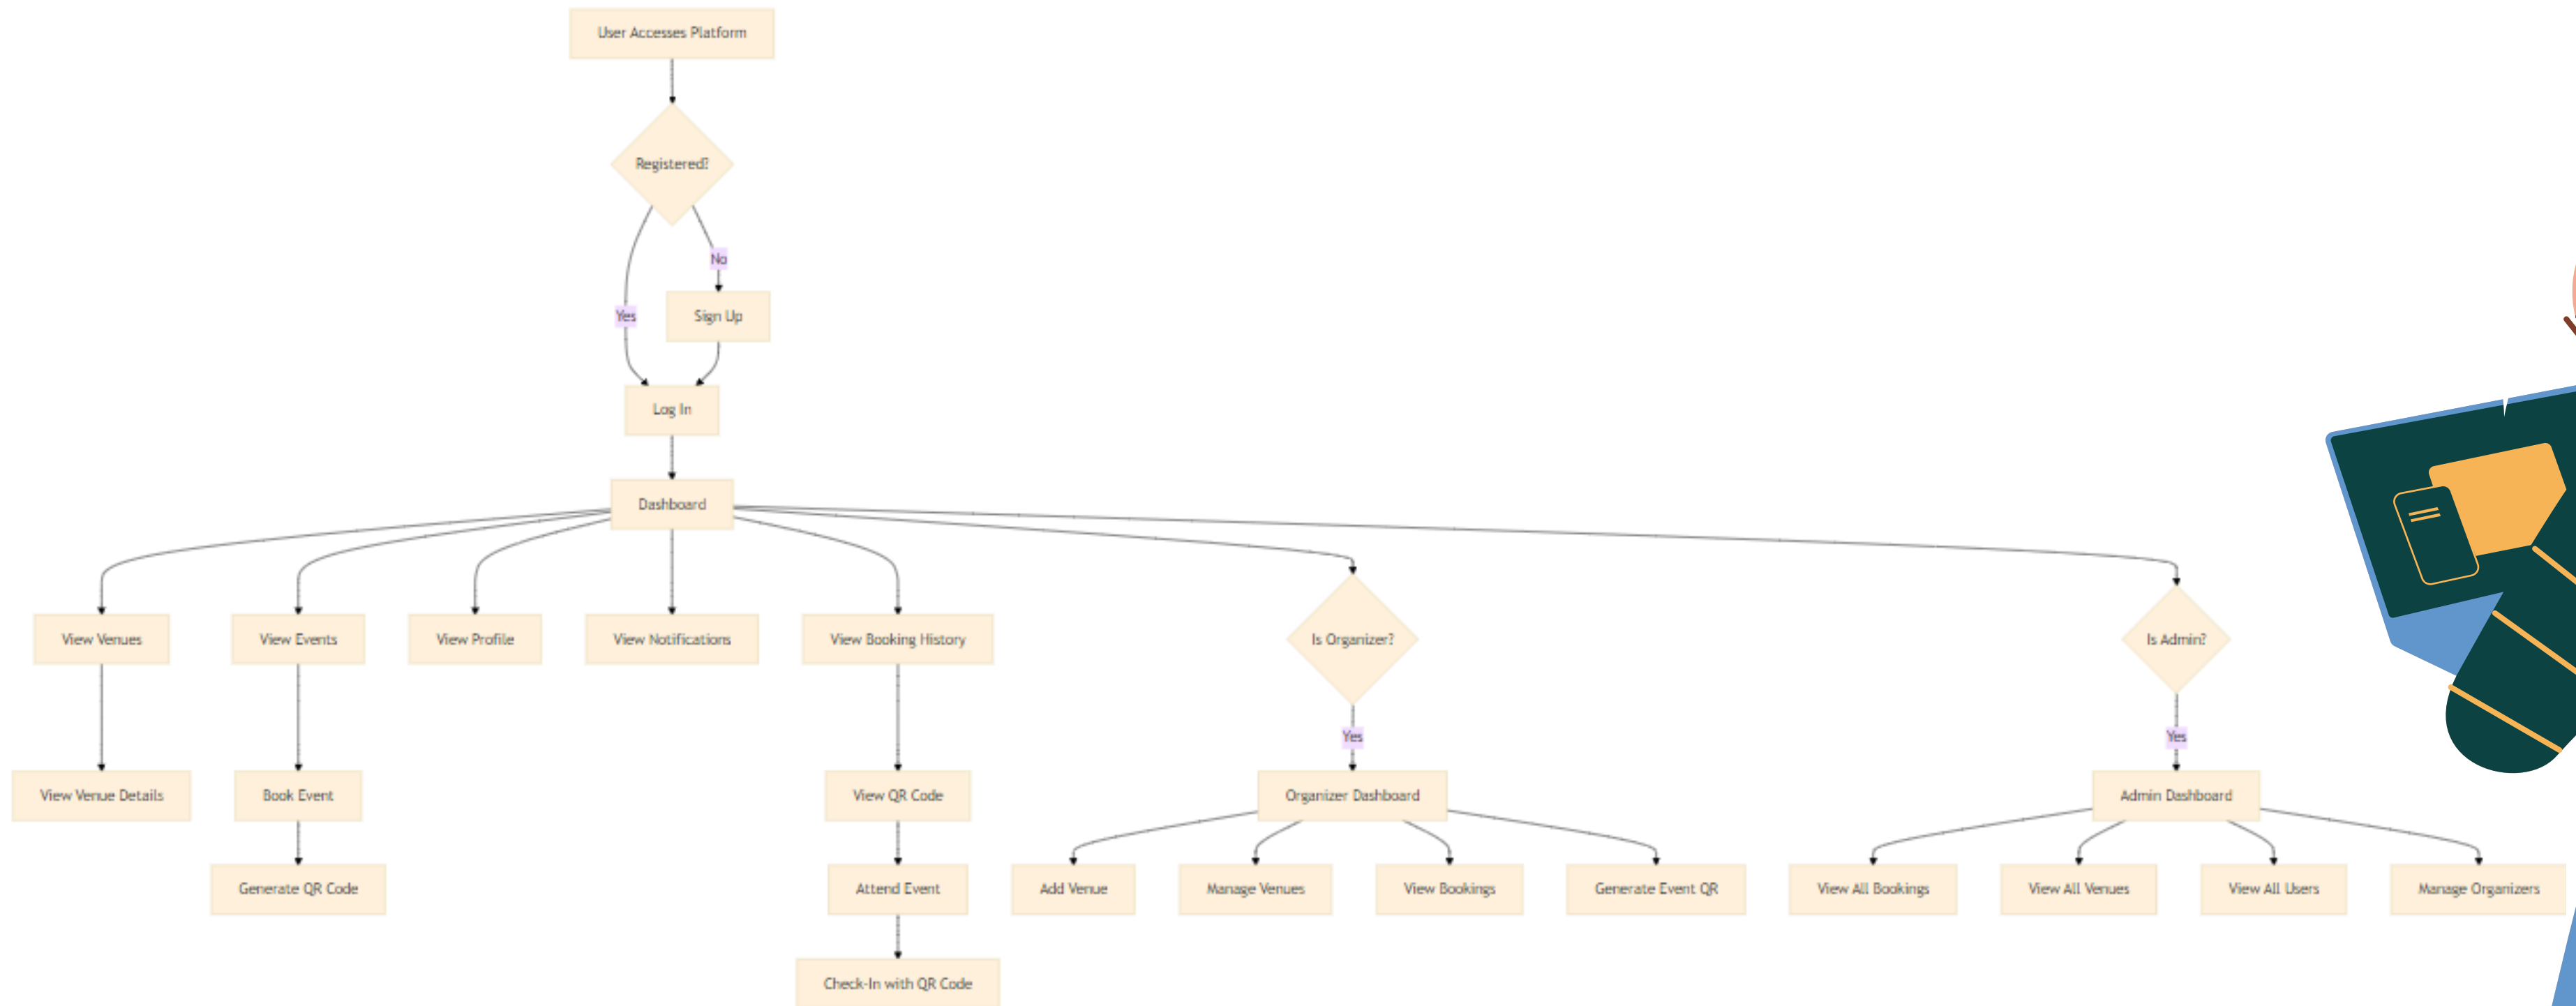

UML Overview Working

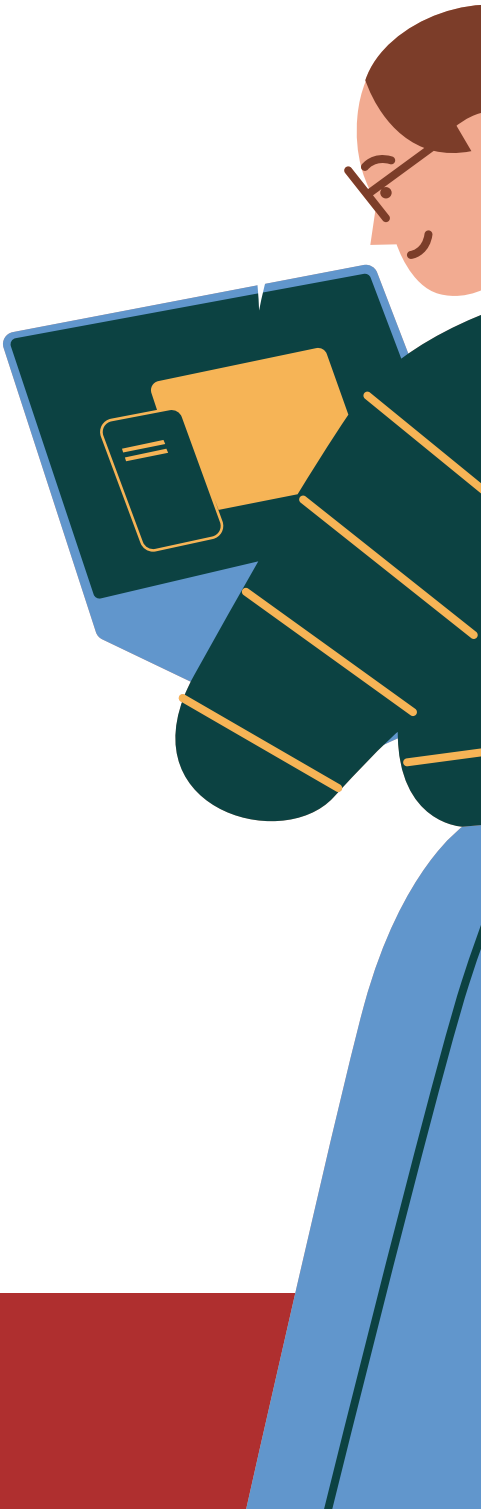

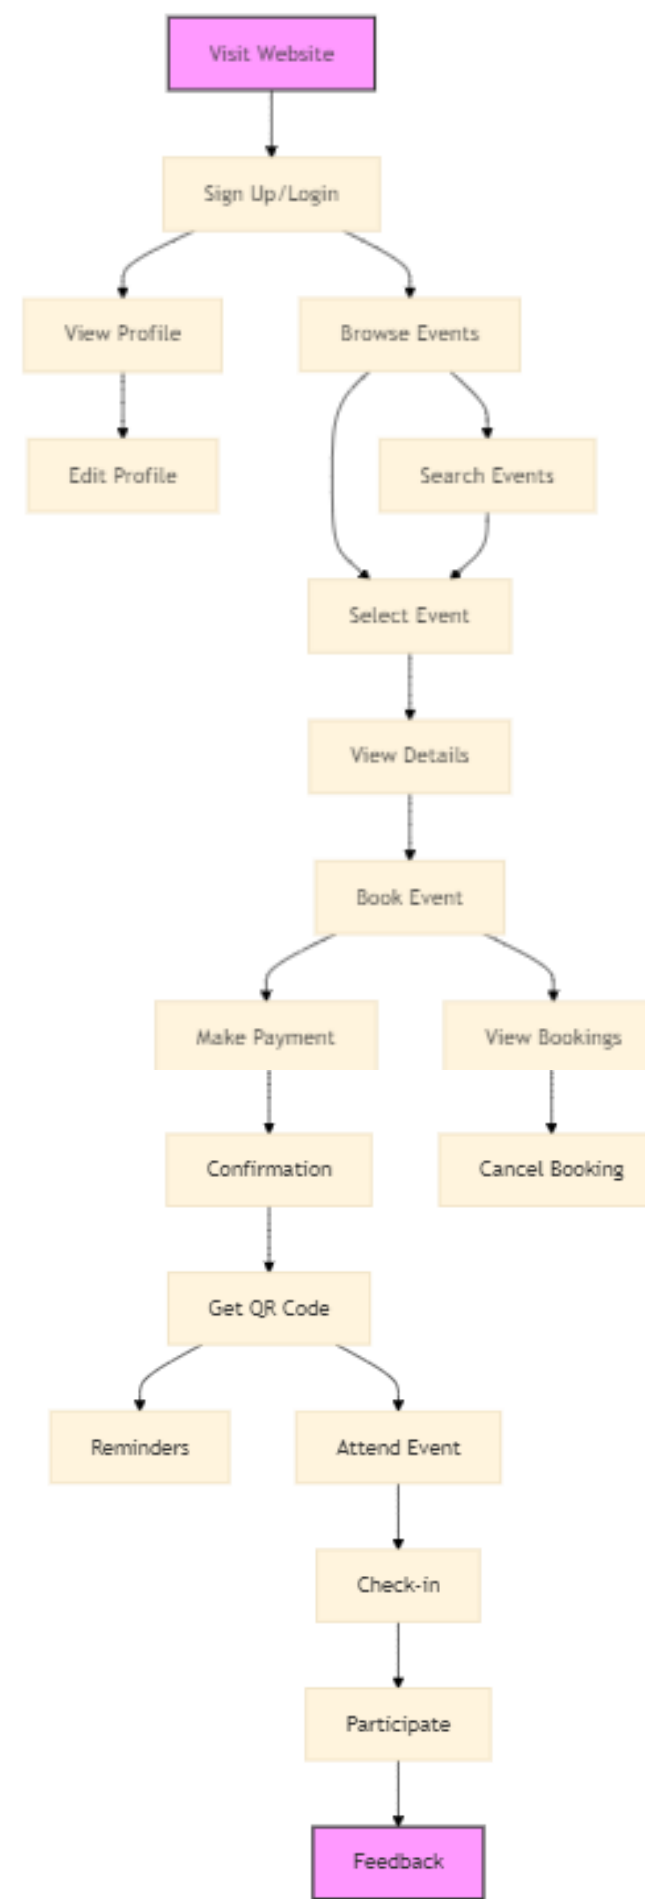

Tech Stack

Frontend	Backend	Deployment
HTML, CSS, Bootstrap	Firebase Real Time Database	Firebase Hosting
Angular, Aos Animation	Firebase Authentication	
DataTable, AngularFire	Firebase Storage	

Flowchart Working

User Journey Flow

Thank You
